# Foreword

THE moral of Oliver Wendell Holmes' "The Chambered Nautilus" was indelibly engraved in our minds during our senior English course. Because it seemed to apply itself so well to our position in life it was decided to make the poem the theme of our yearbook.

In the creation of this class record, we hope that we have fulfilled our resolution that the shackles of tradition and custom should be sent to the lowest depths of the sea by the swelling waves of originality. Our readers may feel certain, however, that we have kept in mind the fact that our yearbook should be a pleasing and accurate account of our high school career. We have honestly and conscientiously striven for the attainment of this end and are confident that the result will be satisfactory to you, the members of our class.

## The Heritage

"I, the heir of all the ages in the  
foremost files of time."

—Tennyson

What is it you inherit,  
Heirs of the ages past?  
Wrung from a thousand centuries  
What is yours at last?

Tenets of truth and honor,  
The right of the common man  
To reap the grain of his sowing  
Thus since the world began.

The right to love and laughter,  
To the brisk wind blowing free,  
To the primal scent of new-turned earth,  
To the stars and the sea.

What of the great inventions  
To aid man toward his goal?  
These are but dust and ashes  
And mockery to the soul.

What of the ancient hatreds  
Instilled from the first-drawn breath;  
Dancing to Satan's piping,  
Drawing the nations to death?

Hatred and war are fetters,  
Man-made machines but toys;  
Each age spurns those of its fathers,  
Eager for newer joys.

Only the things of the spirit  
Abide forever and aye;  
These are the things you inherit,  
'Tis these that are yours today.

WITH the many students at West Side we know it is impossible to have senior activities decided upon by a popular vote, but we nevertheless have a democratic legislature, better known as the **Senate** of the **Senior Class**. This consists of two persons from every senior homeroom chosen by the students. Miss Cora Hill and Mr. Andrew Siska stood by to guide and advise. The senate's responsibilities were many, and through their efficiency in planning senior activities, the Class of January, 1942 has had many interesting times.

# THE SENATE

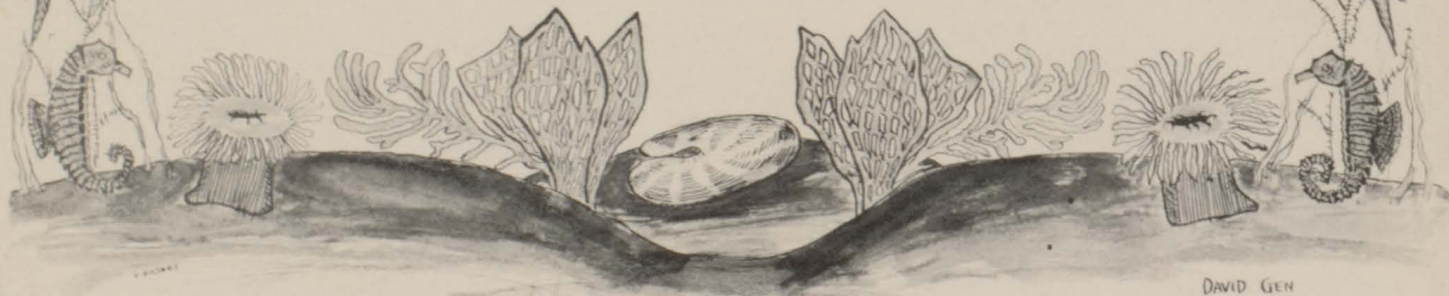

## THE CHAMBERED NAUTILUS

This is the ship of pearl, which, poets feign,  
Sails the unshadowed main,—  
The venturous bark that flings  
On the sweet summer wind its purpled wings  
In gulfs enchanted, where the Siren sings,  
And coral reefs lie bare,  
Where the cold sea-maids rise to sun their streaming hair.  
Its webs of living gauze no more unfurl;  
Wrecked is the ship of pearl!  
And every chambered cell,  
Where its dim dreaming life was wont to dwell,  
As the frail tenant shaped his growing shell,  
Before thee lies revealed,—  
Its irised ceiling rent, its sunless crypt unsealed!  
Year after year beheld the silent toil  
That spread his lustrous coil;  
Still, as the spiral grew,  
He left the past year's dwelling for the new,  
Stole with soft steps its shining archway through,  
Built up its idle door,  
Stretched in his last-found home, and knew the old no more.  
Thanks for the heavenly message brought by thee,  
Child of the wandering sea,  
Cast from her lap, forlorn!  
From thy dead lips a clearer note is born  
Than ever Triton blew from wreathed horn!  
While on my ear it rings,  
Through the deep caves of thought I hear a voice that sings:—  
Build thee more stately mansions, O my soul,  
As the swift seasons roll!  
Leave thy low-vaulted past!  
Let each new temple, nobler than the last,  
Shut thee from heaven with a dome more vast,  
Till thou at length art free,  
Leaving thine outgrown shell by life's unresting sea!

—OLIVER WENDELL HOLMES

**Edward Wirkijowski**

708 SOUTH 15th STREET

Ed, a great softball fan, is the type of fellow one never tires of. He is full of fun and always ready to play a prank on someone. We all know he will be popular on a college campus. Ed belonged to the Math Club and the Science Club while at West Side.

## Alice Wysochansky

520 SOUTH 15th STREET

Alice is the kind of girl who will always have friends. She was the President of the French Club and a member of the Outlook Club, and Table Tennis Club. She also took part in the Senior Show, "Anchors Aweigh." Alice loves horseback riding, and when she goes to college after graduation, she will probably make that her favorite sport.

## Corinne Yeager

18 MARION AVENUE

Corrine's main interest is commercial and fashion design. This interest she put to very effective use when she helped in the decoration of the gym for the June 4B-4A reception. She was also a member of both the Table Tennis and Outlook Clubs.

## Elizabeth G. Young

169 SOUTH 11th STREET

Slow and dreamy, that's Elizabeth. She's never in a hurry—always takes her time, even about handing in homework! It seems strange to connect roller skating with a girl of her temperament; yet that is Betty's chief hobby, and she's very good at it too. She plans to be an office worker.

## Jean Yudis

30 MARSAC PLACE

Jeannie enjoys dancing and when she attends college after graduation, she will probably do a lot of it. An active club woman was Jean. She was President of the Table Tennis Club, and Treasurer of the Outlook Club. Much of the excellent publicity which advertised the Senior Show was due to Jean's diligent work.

## Gloria Zaccardo

258 NORTH 16th STREET  
BLOOMFIELD, N. J.

Gloria is a practical little miss with a knack for making her own clothes. Her cheerfulness and genuine eagerness to help should aid her in attaining her goal, a position as stenographer. Her out-of-school activities included membership in the Italian Club and on the Westonian Sales Staff.

## James Zannino

85 - 14th AVENUE

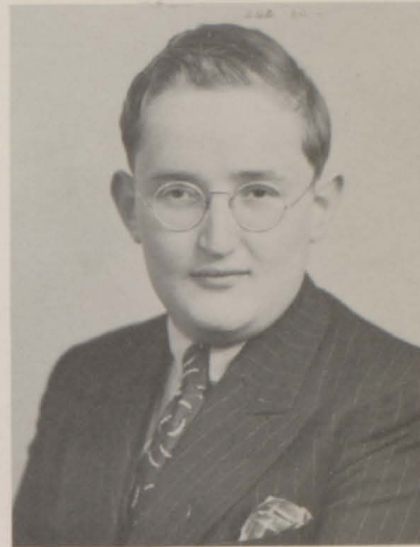

James is debating whether to go into business or join the Navy. If James decides to enlist in the Navy, "Anchors Aweigh" will stand for two main thoughts. One is the happy days he enjoyed while helping out on the Technical staff of the Senior Show; the other is that "Anchors Aweigh" will become a reality that might change James' entire life. Besides his enthusiasm for the Navy, Jim is an ardent football fan.

**Regina Loretta Zarro**

117 SOUTH 8th STREET

"Buzz" always placed her class chief among her interests and so became a representative of her class in the Senate. The activities she indulged in during her high school days were the Spanish Club and the Dramatic Club. We hope that she will achieve her greatest desire—that of entering the business world.

**Isadore Zeizel**

208 SPRUCE STREET

Like to try your skill at chess or checkers? See Isadore. He's the Secretary of the Chess and Checker Club and quite a player. He also participated in the Senior Show. He hopes to be able to find a day-time job and go to college at night.

**Keep 'Em Sailing**

**ADDOLORATO PICCIRILLI**

40 GLADSTONE AVENUE

Heeding his country's call to the colors, "Pic", although he is not here to graduate with us, will always have a definite place among the members of the Class of January 1942. We know that wherever he may be, "Pic", true to his nature, will always be "in there" doing his best.

May we extend our most sincere "best wishes" to those from Barringer Evening High who have become our fellow graduates.

TO those graduating, the Senior Show is the climax of 4A social activities. The 4B-4A receptions and various dances will all be remembered, but the memory of the Senior Show will be the one that will linger while others fade. No one who came to rehearsals for two weeks, remaining until 5:30, will ever forget the fun we had. But it wasn't all fun either. Often it meant just hard work. There were times when we felt that if we had to sing another chorus of "I Am An American" our voices would crack. Sometimes our favorite number, "Time Was", sounded so off-key that even we knew it was bad. And sometimes it seemed that everybody in the show had forgotten his lines, his music, and his dance steps. Before the curtain went up on Friday, November 14, many of us were afflicted with stage-fright and nervousness. But when the curtain finally rose and the audience became hushed, our nervousness passed, and the show went on. The skits, the jokes, the songs, and the dances, all helped to make "Anchors Aweigh" very entertaining.

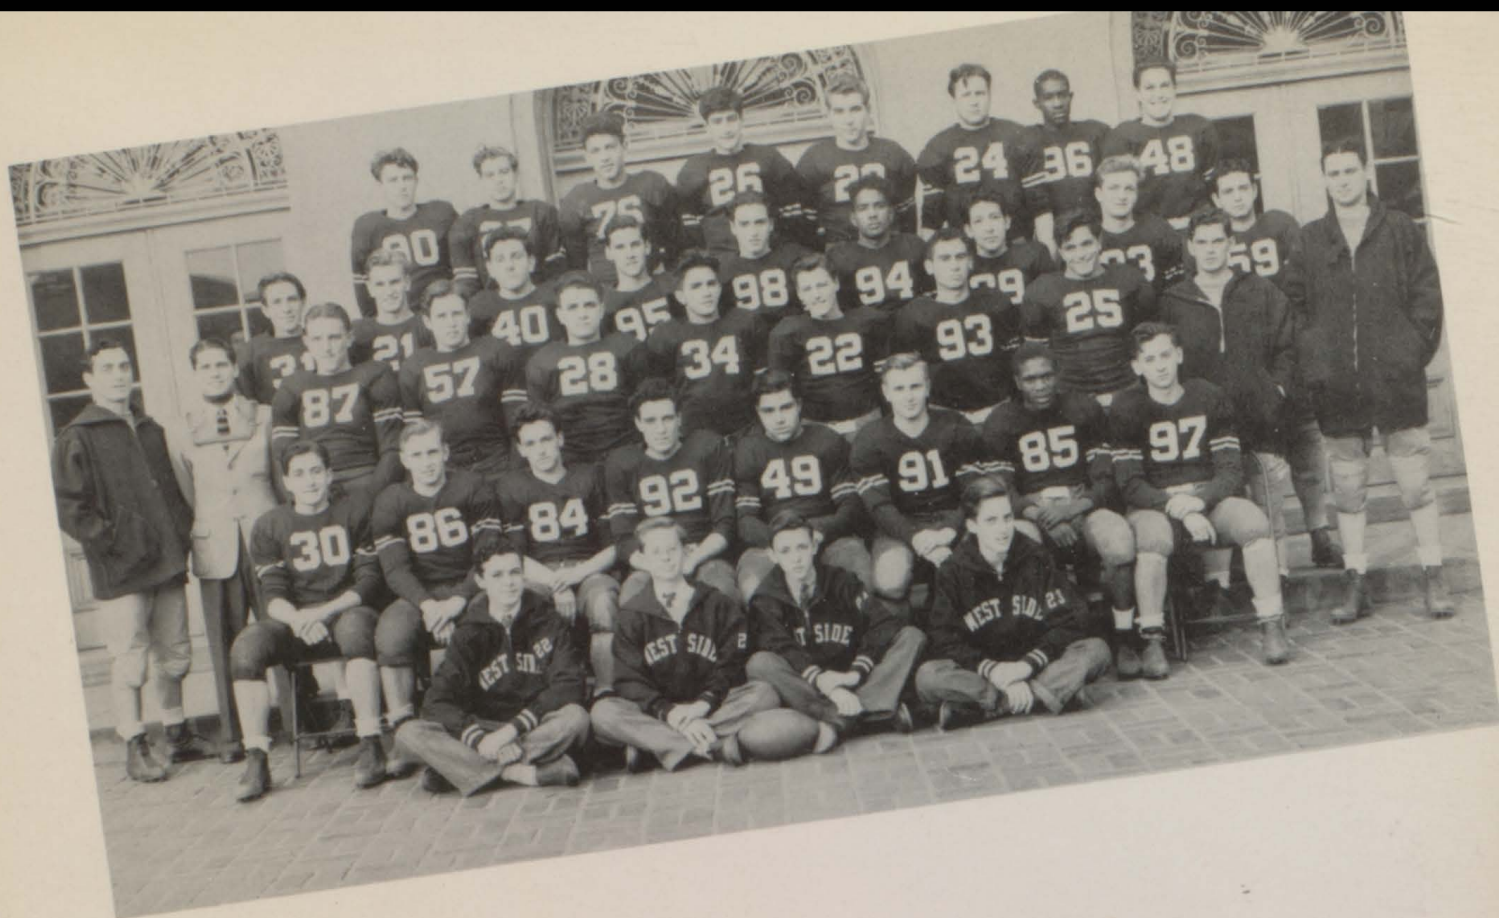

Everyone who had anything to do with the show deserves much credit for the success of the final production. We are very grateful to them. We are also grateful to the teachers who assisted us, the make-up department, the underclassmen, to everyone who helped make our show what it was. To Mr. Rogers, our very able director, should go a great deal of credit for taking a group of amateurs and turning out an entertaining show.

# S H O W

THERE have been better teams at West Side, and there have been worse.

However, we can proudly and honestly say, that never has a football squad of past years shown a better fighting heart or a greater will to win, than has our present group of boys.

We extend our thanks to Mr. Anthony Naporano, our new coach, and his staff, for their untiring efforts in the development of our players. We are confident that, under their tutelage and guidance, it will not be so far off in the future when we again shall have one of the "top" teams in the state.

Thanks and congratulations should also be extended to the general student body, which, supporting its team through thick and thin, has shown a greater school spirit than has been shown in more successful football years.

Out of respect for Walter Eisele, fatally injured player of South Side, the West Side-Weequahic game was cancelled.

## THE CLUB ACTIVITIES

DID we want to mix in good society? Judging from the number of seniors participating in the extra-curricular activities, the answer was obviously in the affirmative. If we liked to belong to a club that helped around school, we joined a club of that kind. Students joined clubs in which they could express their opinions on any subjects of interest to them. We also became members of clubs that provided recreation and entertainment. With these varied activities, it is evident that many students of our class liked the social life they lead at West Side.

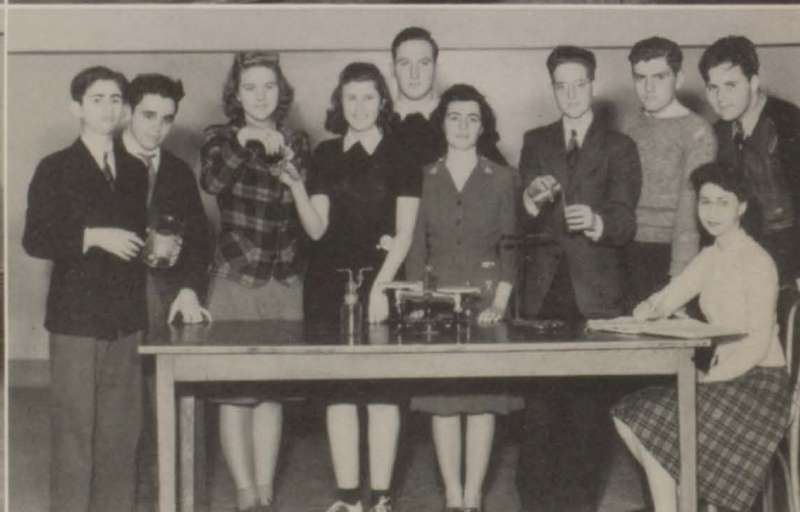

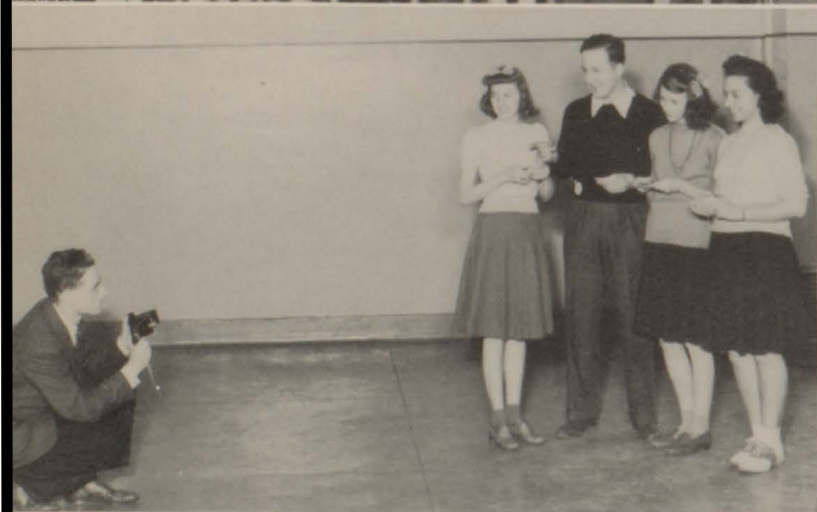

Meetings of the clubs are held after class sessions. Many of the students get acquainted at these social gatherings and become true friends. Fun is enjoyed by all. This fun is supplied, to a great extent, from the adviser in charge. He provides his pupils with laughter and knowledge gained by his experiences.

The election of officers is a great event for all the members of the clubs. A quality which is greatly exhibited by this event is leadership. Leadership is vital for the man who wishes to succeed.

As we rest in our easy chair a number of years from now, we may look upon our social activities at West Side as a milestone to our success in society.

## DO YOU REMEMBER

The time Jack Hanlon and his pal James Kelly came to class on time. (We don't.)

The time Miss Fisher renamed Seymour Graifman, Say-more Graifman.

The bright remark of a brilliant scholar of Solid Geometry that said the polygon on the board was a quadrilateral triangle.

The air-raid practice school dismissal that caused the fifth and sixth periods to be omitted.

Your impression of West Side when you first entered beneath its wings of knowledge.

The time Miss Fisher told Shirley Kinsey that she was petite but not infinitesimal.

The epidemic of measles in our Senior year that nearly forced the school to shut down.

The rush to complete the examination papers before the proctor collected them after the passing bell had sounded.

The glorious feeling of the last day of each succeeding term when your card stated that you had passed all your subjects. (We hope!)

The time Monroe was not sporting a new girl friend's picture in his wallet. (We don't!)

## A SCHOOL TRAGEDY

The first thing that occurred to me, as I awoke, was that the alarm clock had not gone off. I looked at the blank expression on the clock's face, and discovered that it was a quarter to eight. This brought me to the realization that I would be late to school. Then I decided that the best and easiest course to take would be to stay at home. My mother thought differently, however. No sense in rushing though. I would get detention no matter how late I was.

Well, by this time it was ten minutes to eight. So I got up slowly and without much effort. Ah! it was great to be free from the dreadful clutches of time. I will not bore my dear readers with a tedious account of my washing, dressing, and eating. Let it suffice to say that I did wash, dress, and eat that morning.

I ran to the corner, and of course, missed the bus. It seemed an eternity until another bus came along, and when I got on, I had to stand. Well, sir, the bus just crawled along. It stopped at every corner, and made every light, yes, the red ones.

Finally I reached my destination, jumped off the bus, and made a dash to my homeroom in nothing flat. Just as I reached the door, the bell rang. I got inside just as the sound died away. The teacher did not say a word, just pointed. I knew by experience just what that meant. I was to march right down to the office and sign the late book. One period of detention, and the day hadn't even started. But all this was nothing to what happened later on.

Next I went to my first period class, and there I get another period of detention for being late to class.

The day just crept along at a snail's pace, but nothing of real importance happened. True, there were more periods of detention for not handing in any homework. And once I was reprimanded by my English teacher for using incorrect grammar.

Now to get on with the story. As I said before, nothing of real importance occurred until I went to detention class. Then "it" happened.

I was determined to take my medicine like a man. Just then I happened

## A School Tragedy (Cont'd)

to glance in the far side of the room. My eyes continued to move around the room, but something on that far side of the room attracted my attention. This time I looked intently, and in a split second "it" happened. There on the far side of the room was a girl! But wait. This was no ordinary girl. This creature was the most beautiful girl I had ever set eyes on. Yes, after all these years, I had at last fallen in love. True, I had been in love before, but not like this. This was the real thing. Maybe this day would turn out to be alright after all.

Slowly I edged my way over to where she was sitting. I looked into her eyes. What eyes! Cool and limpid eyes, they were. Ah, me! I shall never forget those sapphire orbs. She had chestnut brown hair, too. Her red lips parted to show a set of glowing, white teeth. She had flawless complexion, and oh, she was exquisite!

I was just about to speak to her when the teacher noticed that I had changed my seat. He told me to go back across the room. I would have argued with him, if the girl had not given me an encouraging smile. As it was, I was stricken with dumbness, and I blindly obeyed his order. Oh! Unhappy day!

Soon (too soon), the period ended. I watched, helplessly, as this princess glided out of the room. She has now completely disappeared. No one seems to know who she is, or where she went. To this day I may be seen looking into strange class rooms, behind doors, and

even under tables, but to no avail. I have an advertisement in the Westonian and the Newark Evening News. And now, dear reader, I have come to you for aid. I implore you, I beseech you, I beg of you on bended knees, if you know a girl who fits this description, please refer her to me. And if by any chance the girl has read this story, I ask her to come to me at once. I want to tell her something. I want to tell her that she has a run in her stocking. Ha! I fooled you.

## FOR MEN ONLY

Juts a few do's and dont's that help make (or not make) a gentleman.

Never hold the door open for a girl when leaving or entering a building. She might mistake you for a gentleman.

Be sure to blow your horn for all you're worth when you come to take her out on a date. All the neighbors will pop their heads out of their windows. So please remember to do that little thing boys. She'll love it.

Never have a car. You know there's nothing like an invigorating stroll, especially when she has been standing up for eight hours, working in the local 5 and 10.

Always speak in a voluminous tone when you're not supposed to. Every one will turn around and stare. Then Margie's face will become as red as fire. (You'll really be doing her a favor, for there's nothing so becoming to a girl as a blush.)

When you meet one of your girl friends who is just coming home from the store, loaded down with packages, don't you dare offer to carry some of them home for her. After all, you have the evening newspaper to contend with and that's enough weight for one person to be carrying around.

And when you take her to a formal, make sure you don't ever make an honest attempt to get up and dance. The girl probably just bought a new gown for the occasion and she certainly doesn't want everybody to see it, any way. She'd rather sit in a corner and just look at you.

Well boys, there they are, the keys to popularity. Just make sure you follow them, and if you're still a bachelor at forty you'll know the reason why.

**EXAMS**—On January 15, 1942, after a long four year illness, Term Exams died at 1:30. He leaves no living relatives (we hope).

**FIRE DRILL**—Passed a-way suddenly on January 15, 1942. She leaves a very young brother, Air Raid.

**FOUR IN A LOCKER**—Four in a locker passed away suddenly on January 13, 1942 because of suffocation in a crowd.

**HOMEWORK**—Homework was buried today after a severe attack of overwork. She is survived by no living relatives because her second cousin, Exams passed away too.

**REPORT CARDS**—After thirty-two continuous attacks of severe shock, Mrs. R. Cards passed away on January 12, 1942. She leaves her five children, A, B, C, D, and F. Mrs. Report Cards will lie at rest at West Side High.

**Our lives are just commencing . . . .** We must pass from the sheltered time of childhood and youth to the realities of an incipient maturity. This is a time of ending and of beginning—ending the golden day dreams of adolescence, beginning to shape our thoughts to attack the problems of the world.

Like the nautilus in Oliver Wendell Holmes' immortal poem, we must start building another chamber. If our minds and hearts are conditioned for growth it will be larger and sturdier than the last and we must play an increasing part in its design and construction. Less and less must be the reliance on parents and teachers as architects of our future.

The size and quality of the new chamber will be a measure of success or failure. Note how the home of the failure will be stunted and in disrepair. Observe the static chamber of the smug and the complacent. See how the soaring ambitions of our future leaders are housed in vaulting reaches of appropriate beauty.

Like the Chambered Nautilus, we shape our growing shells. As the sea animal enlarges his shell to house his growing body, we expand our minds and our vision to keep pace with the accumulating knowledge of all mankind.

We now face the world equipped with the finest high school education, an education that would be impossible in any other part of this warring world. America has prepared us for the great task before us, and as Americans we have enjoyed many opportunities and privileges. We are prepared for the great task that faces us.

Let us emulate the nautilus, then, and struggle valiantly to take our place in this fast moving world. **Our lives are just commencing . . .**
